

She's So Loose

Supergrass

Take my love away...

It's never gonna work for you

Well he met her at night
You now that seeing is believing
I know the feeling was right
Well she couldn't stop screaming
And she swallowed it down
To the heart of the world

She's so loose
She's so loose

Take these _wings_ away
They're never gonna work for me

Well he met her at night
You now that seeing is believing
I know the feeling was right
Well she couldn't stop screaming
It's getting harder again
In the heart of the world

You know he met her at night
You now that seeing is believing
I know the feeling was right
Well she couldn't stop screaming
And she swallowed it down
To the heart of the world

You know she's so loose
