

I Can't Take It No More

SuperHeavy

Ah yeah. what the fuck is going on?
All you scurvy politicians
When you're in opposition
You promise me this
You swear you'll do that
You all sound like magicians

I can't take it, take it,
I can't fake it no more
I can't take it, shake it,
I can't fake it no more

You got ruthless ambition
Crying endless contrition
It really gets my goat
It sticks in my throat
You're defying demolition

I can't take it, take it,
I can't fake it no more
I can't take it, shake it,
I can't fake it no more

The stink of corruption
Gets right up my nostrils
With your head in the trough
Your snout starts to froth
You're gonna blow like a volcanic eruption

I can't take it, take it,
I can't fake it no more
I can't take it, shake it,
I can't take it no more
(I'm gonna break you. no trouble.)
I can't take it, shake it,
I can't take it no more
No more, no more, no more
