

Burning ends in the situation
Miss communication leads to complication
Born, torn
How do I feel huh
My redemption's the best intentions
I'm not degrading, anticipating
And why this guilt you hold
Cause I'm not here to be your saviour
No favours
Trust me, I'm not here to taste your burning soul
I'm not invading or self restraining
I hope I run things right
Can you scream like I do
Can you smell fear I do
Can you break from my views
Can you feel my pulse
Pulse (Pulse)
