

Lady Rose

Superman Is Dead

Can you stay a little while, can you drink this cheap bottle of wine...

Got a love song, a broken line, yea...

Put the rose on your hair

Full of grace my queen of mystery

Can't you see, can't you believe

And all they say it's true

Lady rose...

I can sing a thousand song, I can bring your kiss around town

Kiss of angel, as sweet as heaven, yea...

Put the rose on your hair

Full of grace my burnin-latin queen

Can't you see, can't you believe

And all they say it's true

Lady rose...

When you fall to my arms, when you sleep for a thousand year

Never will brings you down, down down down...

You're the heart of the crown

And the blood of all my lifetime

You are my lady rose...

Let me say this, for one last time

Of all the love and beauty I have seen

You're the one my only one, forever...

Put the rose on your hair

Full of grace my queen of mystery

Can't you see, can't you believe

And all they say it's true

Lady rose...
