

## Runaway Stripper

### Superman Is Dead

The night's still young and the booze is free  
My friend he makes a big party  
Soon we are getting there

Down the hill in this mini van  
Tonight is gonna be a blast  
The action just can't wait

So I drink this bottle, and the stars they look so bright  
And the right direction, so we'll see another day  
And we hope she'll be there, wearing just black underwear  
But end up sing this song, and this is for the boys

Runaway stripper, she will never come back  
Runaway stripper, she ain't never comin' back

Is there anything wrong, I don't understand  
I just hoped she found her way home  
Maybe she just want it more, want a better deal  
Let's have a good time without her
