

Forever

Supertramp

I will always love you true forever
Forever, I will always love you true
Hope you feel the same way too, forever
Forever, I hope you feel the same way too
Want to spend my life with you forever
Forever want to spend my life with you

My life with you, my life with you, oh
Life with you, my life with you, oh

Love you till the day I die, yeah forever
Forever love you till the day I die
So I'll sing this song to you forever
Forever, I will sing this song to you

Song to you, song to you
Song for you, song for you
Song for you, song for you...

I really love you, I really need you
I'll always love you...
I really love you, I think about you...
