

Free as a Bird

Supertramp

When a spirit is broken
Why go on
When there's nothing to say
And a love just a token
It was strong
Now it's fading away

Ah but I'm free as a bird
As I walk right out that door
You have my word
I won't bother you no more
Yes I'm doing alright
As I face the lonely night

And our love it was over
Long ago
But we just didn't say
And the years they have fallen
One by one
How they drifted away

Now I'm free as a bird
As I walk right out that door
You have my word
I won't bother you no more
Yes I'm feeling OK
As I face the brand new day

Yes I'm free as a bird...

No more sorrow will I find
I've got tomorrow on my side
No more teardrops will I cry
Left my teardrops way behind
No more heartaches bother me
Don't wear my heartaches on my sleeve

It's gonna be a brand new story
What's the use of former glory
It's better not to do if you can't do right
It's time to get to celebrating
After all the years of waiting
I'm gonna have a ball if it takes all night
