

Get Your Act Together

Supertramp

You say you're so tired, you're never satisfied
But I can't seem to make you understand
I see your point of view, but life's been too good to you
Just stand up and face things like a man

You better get your act together
If you ever want to take it on the road
You can't sit around
Or the bad times are gonna get to you
And you're never gonna see it through

I know, that things don't seem so good right now
But you gotta move along some how
Try to do the best you can
Sure nuff, things will slowly turnaround
You won't always be so down
I know that it's true

It won't always be such stormy weather
It may be a cliché but the sun is gonna shine
So you can't sit around
Or the bad times are gonna get to you
And you're never gonna see it through

It don't matter where you've been
It's where you're going to
Yeah, and it won't do you no good
Just livin' in the past
You know you can't sit around
Cause the bad times are gonna get to you
And you're never gonna see it through

And they're never ever gonna go
Yeah, they'll be here to stay
Yeah, it's always gonna be that way
