

## It's Alright

Supertramp

I want you in my arms tonight  
You know you whet my appetite  
It might be wrong for us to care  
And maybe something's in the air

But if the world is unaware  
It's alright, please say, "It's alright"  
You'll be mine tonight  
It's gonna be alright

I won't care if we fall in love  
I'll be happy with the memory of  
The thought of just one night of bliss  
We can't give up a chance like this  
So just go on and whisper it's

It's alright  
Please say, "It's alright"  
You'll be mine tonight  
It's gonna be alright

I want you in my arms tonight  
You know you set my heart alight  
It can't be like this everyday  
And soon you'll be so far away  
So now I want to hear you say

It's alright  
Please say, "It's alright"  
You'll be mine tonight  
It's gonna be alright

Don't want to make a main feature with you  
Ah, but you know there's a time and a place  
You can't resist it when you're feeling it too  
Ya, I can tell by the smile on your face

We both know that it will be okay  
So don't you let this moment slip away  
Don't have a problem when it's all in the mind  
Yes but we can make it very very real this time
