

Remember

Supertramp

I think it's funny, just a sad song
He likes his money, now you ain't got none
So is it mighty strange
Now that you are so broke
Don't try to make it man
You haven't got a home

Remember when I was in trouble
You put down the phone
And anywhere you go, you go alone

It was a crush change, the money sure flew
You had a flash name, imagine you're broke
But now it's breaking up there's no one near you
Don't try for me to call
Cause I won't hear you

Remember when I was in trouble
You put down the phone
And anywhere you go, you go alone

Remember when I was in trouble
You put down the phone
And anywhere you go, you go alone

Well, don't you sit around, start to move on
Your life is broken down, so get a new one
And if you make it by and kiss the good life
Why don't you make it right
Just look at this time

Remember when I was in trouble
You put down the phone
And anywhere you go, you go alone
