

# Your Poppa Don't Mind

Supertramp

Give it a whirl, give it a try  
Why don't you sleep out, start living high?  
You're on your own, you make your bed  
No time for wasting, just look ahead

Your poppa don't mind what you do or say  
You can't surprise him anymore  
He's got a reputation that he don't look back  
Your poppa don't mind at all

He's getting old, it's getting late  
It's soon tomorrow, so celebrate  
Bring it out and go to town  
Before you're thinkin' of settling down

Your poppa don't mind what you do or say  
You can't surprise him anymore  
He don't believe in heaven like a good man should  
Your poppa don't mind at all

Finding out is half the fun  
And when you find out don't try to run  
And if you know then you've begun  
But if you don't know it's still to come

Your poppa don't mind what you do or say  
You can't surprise him anymore  
He talks about his women and his old school's tie  
Your poppa don't mind at all

Your poppa don't mind what you do or say  
You can't surprise him anymore  
He don't believe in heaven like a good man should  
Your poppa don't mind at all  
Your poppa don't mind at all  
Your poppa don't mind at all
