

1. Starting the day, I couldn't be balanced

Want it all to feel the same

Starting alone, then I see a crowd,

that's making me wonder

Do you want to be the same

I know that you know, keep burning

I know that you know, the time flies

I know that you know, keep burning

Till it all falls down

R: Sam what you see's what you get and it keeps you hanging on

It's an English stereo

Sam do you know I just hope for a better day

It's an English stereo

Whenever I get to my home I sit at my window

Never wanna be home without you

It's an English stereo

2. Starting the day, I couldn't be balanced

Want it all to feel the same

Being a bone covered in a shroud, being buried under

Do you want to end the same

I know that you know, keep burning

I know that you know, the time flies

I know that you know, keep burning

Till it all falls down

R:

3. Starting the day, I couldn't be balanced

It's making me wonder, do you want to be the same

Starting to fall Feeling the tow

Everyone's offering a hand

I wanna know Is it for show Will you stay

R:
