

Light Of My Life

Support Lesbiens

So the light
The one that tricked me under the stairs
The one and my only faithful
It's just a waiting here for you
I'm walking empty streets
On my heart is broken wings
So I never talk or pray this day
Taking me in between, what I dream follows me
Taking me, teaches me all what I've been blamed for

Want to live life in other ways
Start again, I wish I'd got away
Soaked into my secrets going all the way
Stand alone, I wish I'd got away

So the lies
You say to trick me into your dance
The one and my honest fatal
It's just still hating you and me
We stop talking when we meet
Then depart outspoken cheats
That you've taken me and you into
Taking me in between, what I dream follows me
Taking me, teaches me all what I've been blamed for

Want to live life in other ways
Start again, I wish I'd got away
Soaked into my secrets going all the way
Stand alone, I wish I'd got away

So the light
The one that tricked me under the stairs
The one and my only playful
They're all just hiding you from me
Still waiting incomplete
Living here on lonely street
So I never talk or pray this day
Taking me, chases me, teaches me why I've been blamed

I start again
I've got a way now

I start again
I've got a way now

Want to live life in other ways
Start again, I wish I'd got away
Soaked into my secrets going all the way
Stand alone, I wish I'd got away

Want to live life in other ways
Start again, I wish I'd got away
Soaked into my secrets going all the way
Stand alone, I wish I'd got away
