

## Light Of My Life

Support Lesbiens

So the light  
The one that tricked me under the stairs  
The one and my only faithful  
It's just a waiting here for you  
I'm walking empty streets  
On my heart is broken wings  
So I never talk or pray this day  
Taking me in between, what I dream follows me  
Taking me, teaches me all what I've been blamed for

Want to live life in other ways  
Start again, I wish I'd got away  
Soaked into my secrets going all the way  
Stand alone, I wish I'd got away

So the lies  
You say to trick me into your dance  
The one and my honest fatal  
It's just still hating you and me  
We stop talking when we meet  
Then depart outspoken cheats  
That you've taken me and you into  
Taking me in between, what I dream follows me  
Taking me, teaches me all what I've been blamed for

Want to live life in other ways  
Start again, I wish I'd got away  
Soaked into my secrets going all the way  
Stand alone, I wish I'd got away

So the light  
The one that tricked me under the stairs  
The one and my only playful  
They're all just hiding you from me  
Still waiting incomplete  
Living here on lonely street  
So I never talk or pray this day  
Taking me, chases me, teaches me why I've been blamed

I start again  
I've got a way now

I start again  
I've got a way now

Want to live life in other ways  
Start again, I wish I'd got away  
Soaked into my secrets going all the way  
Stand alone, I wish I'd got away

Want to live life in other ways  
Start again, I wish I'd got away  
Soaked into my secrets going all the way  
Stand alone, I wish I'd got away
