

## Sacred Cup

Support Lesbiens

First light, see your face  
In a tortured place  
Of seasoned days  
For your right to again  
Out of reason born these things  
That I'm pulled back into outer space  
Many fallen ways  
Another bad day

If you found the sacred cup  
Then the clouds above you break  
An unspoken air of shame  
When your blood becomes a stain

Then the bite from the snake  
By it's actual grace  
Of poisoned ways  
Live to fight again  
Then the treason gets it's wings  
And it turns into a disaster state  
Many fallen ways  
Another bad day

If you found the sacred cup  
Then the clouds above you break  
An unspoken air of shame  
When your blood becomes a stain

This account has gotta take it  
A god that brave is gonna take this

If you found the sacred cup  
Then the clouds above you break  
An unspoken air of shame  
When your blood becomes a stain
