

She's So Complicated

Support Lesbiens

Oh no, no, well a madman found doubts
Day by day is never her way
Hidden pain forever stays in my head
She, she, she is so devoted
He, he, he doesn't care about it
See, see, see the wild sunsets in my head
The river sweeps away these ghosts
A lover makes a stand to go

Feel any better 'bout you girl
Never going there again
Love is on your side
Pretend I'm your friend, so
Feel any better 'bout you girl
Never going there again
Love just stands a noble cause
Forever comes to stab you through your heart

She, she, she, so complicated
He, he, he, so single minded
See, see, see your silhouette in my bed
She, she, she, so gross addicted
He, he, he, so unaffected
See, see, see your summer dress on my bed
The river flows through come Chat may
A lover comes to marry me
The river sweeps away these ghosts
A lover makes a stand to go

Feel any better 'bout you girl
Never going there again
Love is on your side
Pretend I'm your friend, so
Feel any better 'bout you girl
Never going there again
Love just stands a noble cause
Forever comes to stab you through your heart

Go, go, go, lay, lay, lay, no, no, no
See, see, see, it's never been a DRAM
Say, say, say you laugh at me
I say hey, just marry me
Say, say, say you laugh at those
Lay, lay, lay, too scared to know

Feel any better 'bout you girl
Never going there again
Love is on your side
Pretend I'm your friend, so
Feel any better 'bout you girl
Never going there again
Love just stands a noble cause
Forever comes to stab you through your heart
