Hey old man don't have to be a spaceman
to see what's wrong with this earth
planet's all falling apart
this place is just a battleground
I take tea with
industrial fascists
emissions n gasses all around
just take your car into town

oh why it's up to you to try might wanna
stop now this is for ever
or after say you're sorry
again it's up to you to say might wanna
are you like the rest
all out their heads
I'll be damned

hey old man want us back to being cavemen
going deep underground
try one day coming down
to face the facts and look around
I take tea with
industrial fascists
emissions n gasses all around
I'll get you a ride into town

oh why it's up to you to try might wanna
stop now this is for ever
or after say you're sorry
again it's up to you to say might wanna
are you like the rest
all out their heads
I'll be damned

it's a poisoned pill want to know what you can say
it's a poisoned pill want to know why nobody can
stop the poisoned pill say as much as you can say
it's a poisoned pill want to know why nobody can

I'll take your car for a ride into a town

oh why it's up to you to try might wanna
stop now this is for ever
or after say you're...

oh why it's up to you to try might wanna
stop now this is for ever
or after say you're sorry
again it's up to you to say might wanna
are you like the rest
all out their heads
I'll be damned
