

## Strawberry Days

Support Lesbiens

One of the days to be changed.  
It's just cold and dark.  
It's such a waking pain.  
The brain is heavy as lard.  
In case the body gets cold.Drifted to make a move forth.  
The chest so cold and broke.  
The face is crossed by a tank.  
I never cheated myself.  
So why's the "mirror attack."  
I never cheated my friend, so as I was.  
Straight in my morals to myself.  
I do remember my young age.

Strawberry days that I would chain.  
Strawberry chains will help me wake.

Strawberry days that I would chain.  
Strawberry faded into dreaming'bout the theme.  
That there's no one to blame.  
Helps me understand the whole thing.
