

## One More Promise

Supreme Majesty

I search for shelter  
in the shadows  
Got my back against the wall  
Since you walked away  
You gave me one more  
promise to break  
Got to find my place in life  
Then I'll be back again

I'm here all alone  
Living in hope  
When will I learn  
I'm haunted by fear  
Imagine what the  
future will bring

I'm never giving in  
Holding on forever  
I'm stronger when I'm with you  
One battle left to win  
I'll fight it and I'd die for you  
Until my dreams come true

I hear you calling out my name  
Breaks the silence for a while  
Know something must be wrong  
In a sudden breeze  
my blood running cold  
Sending shivers down my spine  
In a flash it all is gone

I'm still alone  
Living in hope  
I'll never learn  
I'm haunted by fear  
Knowing what the future will bring

Your life swept away  
Like a castle made of sand in the wind  
Now the night kills the day  
I'm hiding in the shadows again
