Drinking Problem

Surfer Blood

Yeah, you think you've got bugs
You think you've got a problem
Baby, you ain't think enough
At least I know who my
At least I know who my friends are
At least I know who my

Yeah man you think that you've got bugs
longitude
You've already done too much
At least I know who my

Even with your resolutions
Hypocrisy is digging in
You don't need a point of reference
You just need to be afraid
Even though I can't believe you
It's not like I don't want to

Anyone can make excuses
At least I know who my

Come on in if you think you've got bugs x6

At least I know who my
At least I know who my friends are
