

Miranda

Surfer Blood

Help me out, Miranda
You left me hanging again
We just let each other down
To let each other back in
How can you say to me
That it's not meant to be?

How can you say to me
It's not meant to be

I could never leave you
So I followed you into

How can you tell me,
You tell me it's not true
How can you say to me
It's not meant to be

Well, please just let me be
A ... to me
Miranda, I can't tell

Miranda
Miranda
Miranda

If I could just hold you
You'd understand completely
Feel I've lost my best friend
Don't know where to begin
What should I say to you
To make you think it through

How can you say to me
It's not meant to be
oh oh

Miranda
Miranda
Miranda
