

Feels Like Love

Survivor

I'm red hot, higher than high
Gettin' some action on a midnight ride
Feeling alright, this Saturday night
Your touch ignites the fire
Driving my heel to the edge of desire
Feeling so right, it's Saturday night
No more lonely nights searching for this feeling
Lovelight's shining in your eyes

Girl it sure feels like love
I need it every day
Yeah it sure feels like love
I wanna tell you
I've been waiting, so long waiting
It feels like love

I once thought love was for fools
For broken hearts and broken rules
I was so wrong, for so long
We're pulling over to the side of the road
Decide if it's love or just an overload
Girl I, I need to know, Ooh I gotta know
No more lonely nights searching for this feeling
Lovelight's burning in your eyes

Girl it sure feels like love
I need it every day
Yeah it sure feels like love
I wanna tell you
I've been waiting, so long waiting
It feels like love

Girl it sure feels like love
I need it every day
Yeah it sure feels like love
I wanna tell you
I've been waiting, so long waiting
I've been waiting, so long waiting
I've been waiting, so long waiting
It feels like love, come on
It feels like love, come on
It feels like love, I feel it every day
It feels like love, every day
It feels like love, every day
It feels like love, come on
