

# I Never Stopped Loving You

Survivor

From a distance I can see  
The picture looks so clear to me  
It's a vantage point so few can hope to find  
And patience held the key  
Our love our only guarantee  
Our destiny to make it through the night  
Through the tears and through the pain  
This house was built to stand the strain  
Through harder times I surely can't recall  
And crazy as it seems, through all we had were crazy dreams  
Those hungry years I'll miss the most of all

Now at last, we fall together  
We've been through it all  
Together ooh, I never stopped lovin' you  
When the money was short  
And dreams were shattered  
Faith in love was all  
That pulled us through  
I never stopped loving you

I've stumbled on the way  
So many nights love went astray  
At different times we each played separate fools  
But love became our pride  
When once we'd seen the other side  
Every highway led me back to you  
Through the wind and through the rain  
This house was built to stand the strain  
Though harder times I surely can't recall

Now at last, we fall together  
We've been through it all  
Together ooh, I never stopped lovin' you  
When the money was short  
And dreams were shattered  
Faith in love was all  
That pulled us through  
I never stopped loving you

From a distance I can see  
The picture looks so clear to me  
A vantage point that only love can find
