

Let It Be Now

Survivor

I've been waitin', tired of waitin'
For your song. your love song
Time just drags by anticipatin'
So much good love has come and gone

And every minute
We spend apart is just time on my hands
It's breakin' my heart
Won't you please, please
Let it be now
I can't wait forever, no
Let it be now
I need you today girl
Girl will you ever know
Let it be now

I get hungry, so damn hungry
For your love, your sweet love
Are you teasing, me for a reason
Need to know, why so slow

And every minute
We spend apart is just time on my hands
It's breakin' my heart
Won't you please, please
Let it be now
I can't wait forever no
Let it be now
I need you today

And every minute
We spend apart is just time on my hands
It's breakin' my heart
Won't you please, please
Let it be now
I can't wait forever no
Let it be now
I need you today girl
Girl will you ever know
Let it be now

My love won't wait
My love won't wait
My love won't wait
My love won't wait
My love won't
