Let It Be Now

Survivor

I've been waitin', tired of waitin' For your song. your love song Time just drags by anticipatin' So much good love has come and gone

And every minute We spend apart is just time on my hands It's breakin' my heart Won't you please, please Let it be now I can't wait forever, no Let it be now I need you today girl Girl will you ever know Let it be now

I get hungry, so damn hungry For your love, your sweet love Are you teasing, me for a reason Need to know, why so slow

And every minute We spend apart is just time on my hands It's breakin' my heart Won't you please, please Let it be now I can't wait forever no Let it he now I need you today

And every minute We spend apart is just time on my hands It's breakin' my heart Won't you please, please Let it be now I can't wait forever no Let it be now I need you today girl Girl will you ever know Let it be now

My love won't wait My love won't wait My love won't wait My love won't wait My love won't
