

Love Is on My Side

Survivor

So strange when lovers change their minds
To realize the joy left foolishly behind
I feel secure down in my soul

Somehow I know
I know that love is on my side
Deep down I know
I know that love is on my side
I'm gonna win, yeah

Some nights I slip into the past
To better understand why two hearts never last
I just don't know why nights so tender turn so cold

Somehow I know
I know that love is on my side
Deep down I know
I know that love is on my side
I'm gonna win, yeah

Walk on through the night
It's all just a game she plays so well
In time, I know
The tide will be turning
And she's gonna learn
Shine a light, shine it bright
And time will testify I know

I know that love is on my side
Deep down I know
I know that love is on my side
Somehow I know
I know that love is on my side
Deep down I know
I know that love is on my side
Ooh yeah
I know that love is on my side
I know
