## **Runaway Lights**

## Survivor

Fly above the hills and valleys High above the streets and alleys On a home bound flight I carry Love enough for one

My emotions overflowing Anticipation growing And the moment still not knowing Seems to weigh a ton

And those scenarios
They spin in my mind
They drift like the clouds
They sail through the night

And when I see those runway lights
In the town that I was born
I say a silent prayer, you? 11 still be there

And as my plane is touching down Will I still belong in the arms that held my life Or have I stayed away to long?

I see your face in midnight driftings By my side I hear your heartbeat Closer still I hold your memory Precious in my mind

In the life that I? ve been chasing
So much times been wasted
I know I could be tasting
The love I left behind

And those scenarios
They spin in my mind
They drift like the clouds
They sail through the night

And when I see those runway lights
In the town that I was born
I say a silent prayer, you? 11 still be there

And as my plane is touching down Will I still belong in the arms that held my life Or have I stayed away to long?

And those scenarios They spin in my mind

And when I see those runway lights
In the town that I was born
I say a silent prayer, you? 11 still be there

And as my plane is touching down Will I still belong in the arms that held my life Or have I stayed away to long?

And when I see those runway lights
In the town that I was born
I say a silent prayer, you? 11 still be there

I wander as my plane is touching down Will I still belong or have I stayed away to long?

All of you'll still be there
I wander as my plane is touching down
Will I still belong or have I stayed away to long?
