

## Talkin' 'bout Love

Survivor

It's been so long babe since I played this telephone game  
I guess eventually some things will never change  
And it can't matter to me baby all those words you say  
They only remind me of yesterday

Well I see right through your crystal eyes and I already know  
your brave disguise  
But baby you want more then I can give  
Baby don't you know -

Everyone you know  
Everywhere you go  
You're always Talkin' 'Bout Love -  
Every night and day every word you say  
You're always Talkin' 'Bout Love

And suddenly babe you try to fool me with a kiss  
Babe that don't work like it worked before -

Well I don't know what you see in me that causing you all the misery  
Baby I can't love you like I did before -  
Baby don't you know -

Everyone you know  
Everywhere you go  
You're always Talkin' 'Bout Love  
Every night and day  
Every word you say  
You're always Talkin' 'Bout Love -  
You're always Talkin' 'Bout Love
