

# People

Susan Tedeschi

People, People  
Don't you know you have a voice?  
People, People  
Don't you know you have a choice?

TV screens and corrupt magazines  
Man on the radio  
Says he knows what you need  
Planting seeds that just mislead  
Can't be taken back  
You watch them grow and then you'll know  
How much you've been lead  
Oh how can you say there's nothing wrong  
When it's gone on too long?

People, People  
What more can I say?  
Let's get ourselves together  
Too much at stake to look away

Don't buy him don't bump for her  
She's likely to be bought  
Don't buy her don't bump for him  
Power's his only thought

Confusion and disillusion  
Proud of your mind  
Until a big decision is too hard to find  
How can you say there's nothing wrong?  
When it's going on too long

People, People  
They said you'd free your mind  
People, People  
Don't you think it's about time?

How can you say there's nothing wrong?  
When its gone on too long

People, People  
Don't you know you have a voice?  
People, People  
Don't you know you have a choice

People, People  
People, people, people  
People, People  
People, people
