

You Need To Be With Me

Susan Tedeschi

When my love comes down baby
I wanna give it to you
There ain't a thing, oh, you can do darlin'
I wanna give it to you

I said, I'm gonna give it to you
I said, I'm gonna give it to you

Oh now when I turn around baby
So slow and patiently
Oh, my thoughts fly straight to you, darlin'
And cry out helplessly

They say, you need to be with me
They say, you need to be with me
Oh, they say, you need to be with me
Oh, you need to be with me

Now you know I need you baby
Oh, how I've got to make you see
That there's no other for you

You need to, you need to, you need to be with me

Oh, I step from plane to plane
So slow and cautiously
With all the stars above my head now
Below my feet the sea

I say, you need to be with me
I say, you need to be with me
Oh, I say, you need to be with me
Oh, you need to, you need to
Oh, come on and be with me
Oh, you need to be with me
I said, come on and be with me
Oh, you need to be with me
I said, you need to be with me
