

# Day of the Titans

Susanne Sundfør

Have you got  
Something to say?  
I look in  
In this dirty game  
Bring them forth  
Someone to blame

Have you got someone to blame?

It doesn't matter now 'cause I'm leaving  
I don't wanna pay for your prostitution  
I know that you're only looking for an executor

You only fear the revolution

I wanna be, I wanna be  
I wanna be your enemy  
I wanna be, I wanna be everything you fear  
I wanna love you, I wanna lynch you  
I oughta leave you there  
I wanna silence you so you can't say your little prayer

Have you got someone to blame?  
Someone pure in this dirty game?

It doesn't matter now 'cause I'm leaving  
I don't wanna pay for your prostitution  
I know that you're only looking for an executor

You only fear the revolution

Take it or not I'm leaving  
I've had enough of your pitiful prostitution  
I know that you're only looking for an easy solution

You can't stop the revolution
