

# Delirious

Susanne Sundfør

I hope you got a safety net  
'Cause I'm gonna push you over the edge  
The strangest thing, deliberate  
Done with intent, without repent

I hope you got some common sense  
Turn around and walk away  
The strangest thing, deliberate  
Done with intent, without repent

I love the pain, I love the game  
Come into my arms, come into my arms  
You say that I'm delirious  
But I'm not the one holding the gun  
I told you not to come  
My victim number one

You won't let go, you won't give in  
Till every part of you is suffering  
It's the strangest thing, it's deliberate  
Done with intent, without repent

I love the pain, I love the game  
Come into my arms, come into my arms  
You say that I'm delirious  
But I'm not the one holding the gun

I told you not to come  
My victim number one  
I told you not to come  
My victim number one

I told you not to come  
My victim number one  
I told you not to come  
My victim number one

I hope you got a safety net  
'Cause I'm gonna push you over the edge  
It's the strangest thing, it's deliberate  
Done with intent, without repent

I love the pain, I love the game  
Come into my arms, come into my arms  
You say that I'm delirious  
Oh, you'll just have to learn the hard way  
I love the pain, I love the game  
Come into my arms, come into my arms  
You say that I'm delirious  
But I'm not the one holding the gun
