Blasting, Blazing
Stars exploding
Cosmic wars raging in the sky
But all I could hear was your last goodbye

Hope you'll come back again
Even though I know you are heartless
Cause you took off my dress
And you never put it on again

It's overrated
It doesn't do it for me
I dreamt the gods descended
I dreamt that time had ended
Planets colliding
Maybe one day we'll be free
But all I ever wanted was for you to want me

Hope you'll come back again
Even though I know you are heartless
Cause you took off my dress
And you never put it on, oh
You never put it on
No, you never put it on again

You won't come back again
Even though the world should answer
"I will never let anybody else come in"
Oh oh oh oh oh oh
Oh oh oh oh oh oh
