

## Trust me

Susanne Sundfør

Nothing's ever easy, when you take ecstasy  
All you do is please me, all you do is tease me  
You cannot erase me, you cannot replace me  
Like they do in the movies, like they do in the movies

Nothing's ever easy  
Baby you can trust me  
Send for the saint and  
Send for the doctor  
And save yourself  
Save yourself

Nothing used to thrill me like your candy flipping night flight  
s  
But now I'm all out of charity, I'm all out of change and  
I cannot erase you, I cannot replace you  
Like you do in your dreams, like you do in your dreams

Nothing's ever easy  
Baby you can trust me  
Send for the saint and  
Send for the doctor  
And save yourself  
Save yourself
