

I don't know what you want  
So tell me how you want it done

I want you tonight

Don't you know the rules of playing?  
I get to tell you whenever I want to

Face your weakness, take me in  
I know you want to feel me  
But only when you say

I can't take this anymore  
So tell me what the hell to do

Wait, something must be done about your attitude  
There's far too many things you've overlooked  
You're scared to look me straight into the eyes  
Realize your living in a show

I want you tonight

Take me to that special place  
And I will give you what you want

Wait, something must be done about your attitude  
There's far too many things you've overlooked  
You're scared to look me straight into the eyes  
Realize your living in a show

Wait, something must be done about your attitude  
There's far too many things you've overlooked  
You're scared to look me straight into the eyes  
Realize your living in a show
