

Objects of Desire

Susperia

An ancient evil centuries old has awakened in the form of the wicked
They use their beauty and their insatiable lust as a potent life force
They become the objects of insane desire
But their kisses yield torture and violence as their suitors discover

Only I am strong enough to end their quest for total domain
And only I am strong enough to test them in a grand test of will
I was never more dangerous than with the night angels, mistresses of hell
