

## Holocene City

Suuns

Easy stays the heart in the cold  
They're making me believe in ideas.  
Run back into the city  
You and me ...  
You said that watch is changing  
With ...is built us together

Chorus:

You see ..tell me those lies!  
Tell me those lies!  
Don't believe what you find inside  
You only see, you arrived just in time!

I'm gonna keep back to the city  
Cause that's where our fate is  
...the rest will seem so unpleasant.

Chorus:

You see ..tell me those lies!  
Tell me those lies!  
Don't believe what you find inside  
You only see, you arrived just in time
