

15 Minutes of Fame

Suzi Quatro

Ego come and egos go, on the stairway to success
justifying our existence, puttin' us to the test
we can all fall down, the mighty and tall
we can all, loose our crown
and the ones you hurt on the rocky road up
trip you up, on the way back down

15 minutes of fame, Andy Warhol used to say
15 minutes of fame then they steal your star away
come on play the game, come shine a light down on me
take a bow, this is now 15 minutes of fame!

money make the world go round
our loss become their gain
selfish fingers grab it all, greed is their domain
we can all want more, but diamonds and pearls
are the need of a lonely soul
and dreams you dream in your darkest hour
are desires in control

15 minutes of fame, Andy Warhol used to say
15 minutes of fame then they steal your star away
come on play the game, come shine a light down on me
take a bow, this is now 15 minutes of fame!

15 minutes of fame is all you get; money and fame gonna get you
get
15 minutes of fame is all you get; so get it while you can
15 minutes of fame is all you get; money and fame and no regret
15 minutes of fame is all you get; so get it while you can
