

## American Lady

Suzi Quatro

Good old american child  
American lady  
Good old american child  
I've been around every single town - london to tokyo  
I've seen the world from inside out  
And what i want to know  
Whare did all those good times go  
Where can we play our rock 'n' roll  
I am going home again  
Stateside is where i'm bound  
American lady  
Good old american child  
American lady  
Your arms are open so wide  
I want you - america  
I need you - america  
I miss - america  
Left to find a golden rainbow  
I flew across the sea  
We would play staccato ballads  
My band of boys and me  
Now i've got everything i wanted  
But there's one thing more  
I hear them calling me  
And i'm coming home  
American lady  
Good old american child  
I hear you calling wildly  
And i'm coming home  
Home to - america  
I need you - america  
I miss - america  
I want you - america  
I need you - america  
I miss - america  
I want you - america  
I need you - america  
I miss - america  
I want you - america  
I need you - america  
I miss - america  
I want you - america  
I need you - america  
I miss - america
