

## Four Letter Words

Suzi Quatro

Well I've been thinking about you all day  
Though my thoughts run wild they won't run away  
And I just can't stand it if I don't think you're thinking of me  
Last night you said love, (love), love is what you said  
When you should've said take, (take) take is what you did  
Did I make a mistake, or am I just being misled  
Oh well I've been thinking 'bout you much too long  
Now it's time you decide where you're comin from

With your four letter words  
And your don't let her goes  
If it's true what I've heard  
Then you don't love her so  
So get your four letter words  
And get on over to me

Well I'm sure it takes time, but I want you to know  
That it's gonna be fine if you just let her go  
'Cos you can't play two hand double edge love games with me  
Oh, hell it's been hell (hell), hell around here  
When you know I can't tell, (tell), tell if you care  
And I just can't live, (live), live, knowin your around there  
Oh well I don't want to hear about it one more time  
I got a four letter bet that says you're gonna be mine

With your four letter words  
And your don't let her goes  
If it's true what I've heard  
Then you don't love her so  
So get your four letter words  
And get on over to me
