

Hurt with You

Suzi Quatro

So lay your weapons on the ground
I'll tip toe in without a sound
You know I could break you if I tried
But I won't try
I just want to tell you that's

Time to tear some fences down
It's time to turn your heart around
Reach out down and grab what's trapped inside
Don't let it die
I don't mean to make you cry but

I need to hurt with you
I need to hurt with you
Sometimes it may seem cruel
Need to hurt with you

So take that picture off the wall
Smash the glass then let it fall
Memories of someone you once knew
Won't get you through
Life is lethal
We survive it

Love is a stranger
Knocking upon your door
Love is a danger
Knocking you to the floor
