

# I've Never Been in Love

Suzi Quatro

Oh, no I can't write my name  
Don't you know I'm so blasted  
This revelation it is hotter  
Than a matchhead  
And I'm ready to go  
Ready to fly away with you  
And I may lose everything  
But I don't give a damn if I do

Never been in love,  
Never been in love,  
Never been in love,  
I've never been in love like this before

This good luck  
It's breaking out of bounds  
And I just got to tell it, tell it  
Oh scream and shout  
You came like a hurricane  
And sent me into the clouds  
And I haven't seen my feet for days  
Cause I'm miles above the ground

Never been in love,  
Never been in love,  
Never been in love,  
I've never been in love like this before

Who says I need a doctor  
Just 'cause I'm acting half crazed?  
I've been laughing so much  
Oh they want to put me away  
And I'm really gonna take this chains of my life  
Yeah, yeah  
Cause this lightning I know  
It will never strike twice

Never been in love,  
Never been in love,  
Never been in love,  
I've never been in love like this before
