

# You Are My Lover

Suzi Quatro

You are my lover and my best friend  
I think I've found the perfect blend  
I don't want this to ever end  
'Cause I don't know what I'd do then  
I was drifting along from man to man  
They slipped through my fingers like they're made of sand  
I wouldn't put up with their demands  
Everytime they did, I turned and ran

I was going through hell when I met you  
You said you were going through the same thing too  
I was so lonely everything looked blue  
You've been just like a dream come true

You are my lover and my best friend  
I think I've found the perfect blend  
I don't want this to ever end  
'Cause I don't know what I'd do then

We're like two lovers in the movies  
Stranded on an island out of reach  
That's always been my secret fantasy  
Making love, right on the beach

I was going through hell when I met you  
You said you were going through the same thing too  
I was so lonely everything looked blue  
You've been just like a dream come true

You are my lover and my best friend  
I think I've found the perfect blend  
I don't want this to ever end  
'Cause I don't know what I'd do then
