

# Believe

Suzie McNeil

One minute's fading  
One minute's past  
But I've got this moment  
To make it all last  
I'm standing before you  
Taking my chance on  
Everything I never thought that I could be  
Cause you can do almost anything

If you just believe  
You can move mountains with dreams  
The higher you climb  
The better it gets  
Cause you will see things  
You'll never forget  
If you just believe

It's like I'm falling through my own fears  
They used to haunt me, but now they're not here  
There's no looking back, my future is clear  
No giving up  
And I'm holding on when it gets rough  
Cause you can get through most anything

If you just believe  
You can move mountains with dreams  
The higher you climb  
The better it gets  
Cause you will see things  
You'll never forget  
If you just believe

No one says it's easy  
And no one says you have to be perfect  
But as long as you try  
You're always gonna find  
It was worth it

If you just believe  
You can move mountains with dreams  
The higher you climb  
The better it gets  
Cause you will see things  
You'll never forget  
If you just believe  
You can move mountains with dreams  
If you just believe  
You can move mountains with dreams
