

Lonely (Are You Coming Home?)

Suzie McNeil

Funny how the world can change
When you're gone nothin's the same
I do the things we used to do
But I don't want to, without you
So come back and see
Right here's where you should be

Chorus
It gets so lonely
Thinkin' about you
Oh and wonderin' where you are tonight
And if I'm somewhere on your mind
I've been down every road
Are you coming home?

I'm standing in an empty room
The silence tells me I need you
Wish you could dry away these tears
And feel my pain
Maybe then you'd stay
Oh come back and see
Right here is where you should be

Chorus

Every moment I wait
Every moment is too late
And I don't know how to get back everything we that had
It all feels like such a waste

Chorus

Chorus
