

Skin

Suzie McNeil

You're like an accident waiting to happen
I'm like a time bomb tickin' away
Too much obsession is better than nothin'
You drive me totally crazy
I'm tired of fightin' it, putting up fences
I built the walls then you break them down
I try but I can't come to my senses
You really know how to play me

Chorus

'Cause you shake me up when you touch my skin
Leave your name on me like a fingerprint
'Cause I need you, I breath you like oxygen
You're saturated in my skin

You're like tattoo I try to cover
You're like an itch that won't go away
You're the mistake I keep running back to
Don't want to jump but you made me

Chorus

You got me twisted up its true
Deny it 'til I'm black and blue
It's there no matter what I do
I can't get enough of you

Chorus

Chorus
