

Too Low

Suzie McNeil

I know how it feels to be driving down the wrong side
Running red lights inside of me
The signs all scream don't go that way
I'm so tired of going through the motions
Two years, a thousand distractions
There is only so far you can go in your head
You turned me around with the things that you said

Chorus

Cause you take me just where I need to go
Somewhere you can't go alone
Baby, I couldn't see
I was looking too low, looking too low
You can't see if your head is hanging down
What's right here waiting to be found
Baby I couldn't see you I was looking too low, looking too low

Been living my life with a weight on my shoulder
Growing older but not wiser
Weeds are showin' through the cracks in my lonely heart
There is only so far you can go in your head
Your life hits a wall when your soul isn't fed

Chorus

Well I am here and I'm seeing the stars I never knew were there
If you didn't push me, if you hadn't cared
How would I have ever dared?

Chorus
