I didn't say, we wouldn't hurt anymore
That's how you learn, you just get burned
We don't have to feel like dirt anymore
Though love's not learned, baby it's our turn

We were always lookin' for true love With our heads in the clouds Just a little off course But I left that motor runnin' Now if you're feelin' down and out

Come on baby drive South With the one you love Come on baby drive South

I'm not talkin' about retreatin', no sir Gonna take our stand in this Chevy van Windows open on the rest of the world Holdin' hands all the way to Dixieland

We've been tryin' to turn our lives around Since we were little kids It's been wearin' us down Don't turn away now darlin' Let's fire it up and wind it out

Come on baby drive South With the one you love Come on baby drive South

I heard your momma callin'
I think, she was only stallin'
Don't know who she's talkin' to
Baby me an' you

We can go south with a smile on Ain't going to pack my nylons Just leave these legs showin' It gets hot down where were goin'

We were always lookin' for true love With our heads in the clouds Just a little off course But I left that motor runnin' Now if you're feelin' down and out

Come on baby drive South With the one you love

Come on baby drive South With the one you love Come on baby drive South
