

# Everything

Suzy Bogguss

I love you, I hate you  
Need you, can't wait to be with you  
So I can leave you and come back again  
'Cause you're everything

You hurt me, you please me  
It's hard, but it's easy  
To see that the shoreline of you meets the ocean

'Cause you're everything  
I love everything about you  
Everything  
There's not anything without you

It's crazy, it's boring  
I'm falling, I'm soaring unchained  
But I'm flying so high  
And it's all about you  
'Cause you're everything

You pull me, you guide me  
You push and you tie me in knots  
But beside me is right where I want you

'Cause you're everything  
I love everything about you  
Everything  
There's not anything without you

Zip, zero, nada  
Can't leave you, don't wanna

So the sky's not always blue  
Let the raindrops fall  
I don't want a piece of you  
Got to have it all  
Everything

I love you, I hate you  
Need you, can't wait to be with you  
So I can leave you and come back again

'Cause you're everything  
I love everything about you  
You're so everything  
I love everything about you  
Everything  
There's not anything without you

Zip, zero, nada  
Can't leave you, don't wanna

You're everything
