Twilight I feel the hot wind blowin'
See the shadows through the window on the sand
The desert sun is hurlin' on
And we've got lots of time
Oh friend of mine

Lyin' in your arms I'm just dreamin'
And I love to feel your fingers on my skin
Driftin' in the pearl of night
The covers you remain
Oh friend of mine

Friend of mine
You have always been true
And I love the way you hold me
And to try my stand with you

Twilight I feel the hot wind blowin'
See the shadows through the window on the sand
The desert sun is hurlin' on
But we've got lots of time
Oh friend of mine
Oh friend of mine!
Oh friend of mine!
Oh friend of mine
